Rigby Financial Autumn 2017 Newsletter

A recent survey reported that 74% of SME's had experienced an IT security breach And you're not just at risk from malicious attacks like hacking, stolen laptops, and viruses.

We did it!!!!

You may be aware that we hosted our annual charity golf day at Grange Park Golf Club in St Helens. Despite the forecasts the rain stayed away and the players were rewarded with sunny spells. We would like to thank all the support that this event received and particular thanks to Grange Park Golf Club for their hospitality on the day and assistance during the organising of the event.

The day was in aid of Alder Hey Children's hospital and we are pleased to confirm the amount raised was £2,556.60!!!

Cover that gives you <ctrl>

We understand that the risk of cyber threats is greater than ever before. Could your business survive without access to your systems and data? Losing sensitive data could be seriously damaging so it's vital to make sure you have the protection you need

We have worked together with a number of UK Insurers, combining our expertise with great products some of UK's largest insurers. They, in turn, have the support of data security experts, who can advise on how to protect your businesses against a cyber attack and, if it does happen, to ensure the breach causes minimum disruption.

Stay safe this Autumn

For many of us, the clocks changing in autumn isn't something we really look forward to — but for criminals, perhaps it is. Shorter days give them more time to work under cover of darkness, research shows there's a significant increase in burglary between Halloween and Bonfire Night.

Halloween sees a rise of 150% in malicious damage claims to homes, damage to cars rising by 50% and car thefts also increasing by 20%. Now, that is scary. And Bonfire Night is the worst night of the year for break-ins. It seems burglars take advantage of many people being out of the house at public displays or parties and the noise of fireworks cover up suspicious sounds such as smashing glass.

Of course, these types of incidents are covered by standard home and motor policies, but it's always best to avoid the worry of being a victim of crime in the first place. With 80% of crime being committed by opportunists, it's the simple steps that can have the greatest effect: -

Remove keys from doors, shut windows when you go out, make your house look occupied, lock sheds, garages and other outbuildings, fit motion-sensitive exterior lighting.
